---

## EMPLOYMENT HISTORY

2009 — Present

### Founder, The Pixel Flow

Remote

Assisted various agency level clients on their digital media projects. Recommendation, execution, and implementation of solutions resulting in hundreds of millions of unique visitors and millions of dollars. Assembled, lead, and managed multiple distributed remote teams using Agile methodologies.

2019 — Mar 2022

### Head of Technology, Main & Rose

Remote

Created and assisted in implementation of company-wide project life cycle processes between various stages such as client on-boarding, project scoping, and project implementation. Oversaw development and deployment of web based projects for high end brands such as Hilton Hotels and startups in the ETF field from former BlackRock executives utilizing various technologies.

Jan 2015 — Jan 2016

### CTO, Taylor Media

Remote

Helped create and lead internal technology and marketing teams. Assisted directly in generating over 2 million subscribers while helping increase revenue at 7 figure levels. Oversaw complete site and digital strategy overhaul and laid the ground work for this amazing company which was acquired recently for 102.5 million dollars.

2009 — 2010

### CTO, The Network Talent

Hollywood

Lead internal and remote based near-shore distributed teams in the development of multiple technology platforms for this modeling startup which grew to be featured on a CW TV show, ReModeled. Also assisted in gathering funding in the 7 figure range during investor presentation and partnership conferences.

2007 — 2009

### Lead Developer, Spillman:Hahs

Los Angeles

Lead a small team of production hands and contractors for multiple concurrent clients. I also lead development efforts at times, assisted in contract negotiations, held client meetings, and measured progress through milestone reporting.
